PROFESSIONAL SUMMARY

Laravel Full Stack Developer with 6 months of hands-on experience designing, developing, and maintaining enterprise ERP web applications using PHP, Laravel, JavaScript, jQuery, AJAX, and Microsoft SQL Server. Skilled in building end-to-end business modules covering the complete workflow from requirement to release, including quotation management, job management, material handling, and PDF report generation. Experienced in optimizing performance for large-scale data processing using Laravel Queue and Snappy (wkhtmltopdf). Passionate about writing clean, scalable code and delivering reliable, user-friendly solutions.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, PHP, SQL

Frontend: HTML5, CSS3, JavaScript, Bootstrap, jQuery, AJAX, JSON

Backend: PHP, Laravel, Laravel Queue

Database: MySQL, Microsoft SQL Server, Stored Procedures, Views, Joins

Reporting: DOMPDF, Snappy (wkhtmltopdf)

Tools: GitHub, Visual Studio Code, XAMPP, Postman

PROFESSIONAL EXPERIENCE

Laravel Full Stack Developer | Smartzen Solutions Pvt. Ltd.

Feb 2026 – Sep 2026

- Developed responsive ERP web applications end-to-end using PHP Laravel across frontend and backend.
- Designed modern, user-friendly interfaces using HTML5, CSS3, JavaScript, Bootstrap, and jQuery.
- Integrated frontend applications with Laravel backend APIs using AJAX and JSON.
- Developed and optimized SQL queries, Views, and Stored Procedures using Microsoft SQL Server.
- Delivered ERP business modules including Quotation Management, Job Management, Material Request/Issue, AMC, and Manager Assignment.
- Diagnosed and resolved production issues, improving application performance and stability.
- Collaborated with the team to translate business requirements into high-quality, on-time solutions.

KEY PROJECTS

Quotation Management Module — Smartzen Solutions Pvt. Ltd.

End-to-end RFQ module built with Laravel and Microsoft SQL Server, covering the complete quotation lifecycle from creation to release.

- Developed the complete RFQ workflow from quotation creation to final release.
- Implemented customer information management and quotation storage.
- Built quotation listing with search and grid-based record management.
- Developed package and material selection functionality.
- Implemented employee assignment using drag-and-drop interaction.
- Generated Proposal Offer reports in PDF format using DOMPDF.
- Implemented quotation release functionality with edit restrictions after release.
- Developed revision management to allow controlled modifications via new quotation revisions.
- Implemented email functionality to send released quotation PDFs directly to customers.
- Designed and optimized database operations using Microsoft SQL Server.

Job Management Module — SmartGas Technologies

Module managing the complete job lifecycle after RFQ approval, including phases, pricing, materials, and reporting.

- Developed the workflow to convert approved quotations into Jobs and tracked jobs through the project lifecycle.

- Built the Phase Entry module to divide projects into phases (e.g., rooms or floors) with material management per phase.
- Developed the Price List module and a Price List Revision feature, optimized for large-scale updates using Laravel Queue.
- Built the Material Request module with quantity validation, and the Material Issue module with return handling for unused materials.
- Developed the Open Material Request report to monitor pending requests.
- Generated high-volume PDF reports using Snappy (wkhtmltopdf) for improved performance on large datasets.
- Built the Manager Assignment module with a grid-based interface for assigning/reassigning acting managers.

Technologies: Laravel, PHP, Microsoft SQL Server, JavaScript, jQuery, AJAX, HTML, CSS, Bootstrap, Laravel Queue, Snappy (wkhtmltopdf), DOMPDF.

ACADEMIC PROJECTS

Out Pass Management System

- Developed a web application for managing student out pass requests using PHP, MySQL, HTML, CSS, and JavaScript, providing an efficient workflow for request submission and approval.

Deepfake Analysis

- Developed an academic project focused on identifying manipulated media using machine learning concepts and image analysis techniques.

EDUCATION

Bachelor of Technology (B.Tech) – Information Technology

Paavai Engineering College | 2021 – 2025

CERTIFICATIONS

- PHP & MySQL – IIT Bombay
- AI Ethics – IBM SkillBuild
- Democracy Leadership Program – MIT Pune
